

**VILLAGE OF STOCKBRIDGE MICHIGAN DOWNTOWN DEVELOPMENT AUTHORITY**  
**STATE OF MICHIGAN REQUIRED INFORMATIONAL MEETING PACKAGE**

**October 22, 2020**

Video Conferencing Public Meeting conducted using meeting electronically using app program called [www.ZOOM.com](http://www.ZOOM.com), as authorized by EXECUTIVE ORDER No. 2020-129. The reason for conducting P.C., regular scheduled meeting electronically is required because of the worldwide pandemic outbreak of the novel coronavirus (COVID-19), which is a respiratory disease that can result in serious illness or death. There is currently no approved vaccine or antiviral treatment for this disease. The SDDA wants their fellow board members and the public to be safe.

ZOOM access ID number 833-7987-5456 , Passcode 627848 for October 22, 2020 SDDA meeting

**The Village of Stockbridge Downtown Development Authority (SDDA)**

Tax increment financing is a government financing program that contributes to economic growth and development by dedicating a portion of the increase in the tax base resulting from economic growth and development to facilities, structures, or improvements within a development area thereby facilitating economic growth and development, eliminate property value deterioration. Halting property value deterioration.

Tax increment financing permits the Stockbridge Downtown Development Authority (SDDA) to capture Tax Increment Financing Revenues (as defined below) attributable to increases in value of real and personal property in the development area. The tax increment finance procedure was governed by act 197 of the Public acts of 1975 which has been replaced by act 57 of Public act of 2018 re-codified as amended (the "DDA Act") The procedures outlined below are the procedures provided by the DDA Act effective as the date of this plan ( January 01, 2019) is adopted but are subject to any changes imposed by future amendments to the DDA Act.

The Tax Increment Revenues are generated when the Current Assessed Value of all properties within the Development area (TIFD) exceed the initial assessed Value of the properties. (See attachment of TIFD area Village of Stockbridge Mi.)

**How is Captured Assessed Value determined.**

The amount in any one year by which the Current assessed value exceeds the initial Assessed Value is the Captured Assessed Value.

## **VILLAGE OF STOCKBRIDGE MICHIGAN DOWNTOWN DEVELOPMENT AUTHORITY**

### **STATE OF MICHIGAN REQUIRED INFORMATIONAL MEETING PACKAGE**

#### **HISTORY**

When the Village Council enacted the Original Tax Increment Financing Plan by Ordinance in 1986, the Initial assessed Value of Development area was established as the assessed value as equalized, of all the taxable property within the boundaries of the Development area at the time that ordinance was approved as shown by the then most recent assessment roll of the village for which equalization had been completed prior to the adoption of the 1986 Original Plan by ordinance. Property exempt from taxation at the time of the determination of the initial assessed value was included as zero however in determining the Initial assessed value property which a specific local tax was paid was in lieu of a property tax was not considered to be property that was exempt from taxation A specific local tax is defined in the DDA act and industrial plan Industrial facilities taxes levied under 1974 PA 198, taxes levied under the Technology Park Development act 1984 PA 385, and taxes levied on lessees and users of tax-exempt under 1953 PA 189 . The initial assessed value or current assessed value of property subject to a specific local tax paid was determined by calculating the quotient of the specific local tax paid, divided by the ad valorem millage rate or by other method as prescribed by the state tax commission

Each year current assessed value of TIFD will be determined. The current assessed value of the Development area is the taxable value of real and personal property located in the development area

In 1986 The Village of Stockbridge Mi. started capturing that portion of taxes solely attributable to increases in value ad valorem tax levy of all taxing jurisdictions on the captured assessed value of taxable real and personal property located in the development area (TIFD). (see attached Map)

The Stockbridge Downtown Development Authority (SDDA) receives approximately \$170,000 dollars annually. The Stockbridge SDDA is staffed by nine unpaid volunteers therefore all revenue collected are dedicated to ongoing or future projects which are described in a detailed plan. Members of the SDDA are local business owners, employees, Village President, Resident of the TIFD and one or more Residents of the village.

#### **Sustainability of Increment Financing Revenues.**

For the duration the Village of Stockbridge maintains an amended Tax Increment Financing plan and complies with act 57 of 2018 reporting requirements. The Village of Stockbridge a taxing jurisdiction will continue to receive tax revenues based upon the initial assessed value of the real and personal property levied by all taxing jurisdictions on the captured assessed value of taxable real and personal property located in the development area (TIFD).

#### **What is the Benefit to the Village of Stockbridge for Supporting a TIFD overseen By The SDDA**

What benefit has the establishment of the Stockbridge Tax Increment Financing plan to the Village while complying with legislative mandated requirements for having a Tax Increment Financing jurisdiction.

## VILLAGE OF STOCKBRIDGE MICHIGAN DOWNTOWN DEVELOPMENT AUTHORITY

### STATE OF MICHIGAN REQUIRED INFORMATIONAL MEETING PACKAGE

#### Listed below are the achievements of the SDDA 2020

  - for plan allows for and has sponsored Façade, Incubator, Loan programs.
  - The SDDA partnered with seven different business to help them improve the appearance of their façade sponsored

### **CONSEQUENCES IF THE VILLAGE OF STOCKBRIDGE TAX INSTRUMENT FINANCING AUTHORITY WAS DISCONTINUED**

In addition to the accomplished Legislative mandated benefits to the Village. The loss of this revenue would also result in the probable reversal of those accomplishments but would also probably result if not eliminate maintenance in the TIFD district to so Sidewalk maintenance, maintenance to the Five (5) Parking lots which includes Snow plowing, Resealing, Striping, Asphalt repair, provide and install American Flags and Banners, maintenance of Light Poles painting and Bulb replacement, Maintenance of Veterans park Restrooms, Gazebo, Play equipment repair / replacement, Basketball Court, Volleyball Court, Tennis Court, Walking Path. Skateboard Ramps maintenance, Mowing and Gazebo Light fixture maintenance, Maintenance of Security Cameras that help prevent crime in the park. The DDA also pays the electric bill for all lighting in the TIFD. Which includes the Decorative sidewalk light poles and all parking lot lighting.

If the SDDA was disbanded the Village would have a net loss of revenue of approximate \$90,000 dollars in a fiscal year. The reduction in of \$90,000 in revenue to the village would result likely discontinuing the support and sometimes the only money many community social events rely on. DDA currently supports the following social functions: A Day in the Village, All Clubs Ride, All clubs Day, Harvest Festival, Festival of Lights, Open Air Market, Seasonal Decorations, Banners.

The Village would only net back approximately \$23,000 dollars. The reason is that the SDDA. Contracts with the village to perform the services listed above for \$40,000 a year. And the approximate \$90,000 captured from that portion of taxes solely attributable to increases in value ad valorem tax levy of all taxing jurisdictions on the captured assessed value of taxable real and personal property located in the development area (TIFD). (see attached Map)

## **VILLAGE OF STOCKBRIDGE MICHIGAN DOWNTOWN DEVELOPMENT AUTHORITY**

### **STATE OF MICHIGAN REQUIRED INFORMATIONAL MEETING PACKAGE**

The revenue generated from capturing these revenue taxes from tax levied ad valorem tax levy of all taxing jurisdictions on the captured assessed value of taxable real and personal property located in the development area (TIFD). would not otherwise flow into the Village allowing the ability to attract new business and maintain infrastructure installed by the SDDA and would return to taxing jurisdiction's from which taxes are capture for.

If the SDDA was to be dismantled it more than likely could not be reinstated and would be gone forever. If the Village of Stockbridge could reinstate / start a new SDDA program it could only capture taxes in the TIFD district from the restarted date forwarded all new increases in taxes in the TIF District.
